Where Learning & Fun Connect

The Children's Museum has fun and learning planned throughout the year, even when the kids are out of school!

Each camp day/week has a science theme and is packed with scientific investigation, experiments, crafts and games all in the safe and educational environment of the museum. Of course, there's plenty of time to explore the hands-on interactive exhibits, see one of the amazing planetarium shows and have an up-close encounter with a live animal!

Summer Science Camp is licensed by the State of Connecticut as a Youth Day Camp and geared for children entering grades 1-6 in the fall. The camp is led by Museum Educators who supervise and plan activities.

Counselors and volunteers with previous experience working with children also assist at camp. Workers have proper First Aid training.

Summer Science Camp has full day sessions from 9 a.m.-4 p.m. or half day sessions from 9 a.m.-12:30 p.m. Sign up for a single day or multiple days.

Preschool age camp options also available. Call for more information.

Your children will have a fun and interactive experience to remember!
