Xavier High School is an all-male Catholic college preparatory school. Its 800 students come from over 60 different towns across Connecticut with one goal: to develop into the best men they can be – academically, athletically, spiritually, and socially.

Xavier High School offers a variety of summer camps and programs — something for everyone!

Xavier Athletic Summer Camps: Learn the skills to play harder, better and stronger! Featuring baseball, lacrosse, football, track, crew and more. Summer Athletic camps are staffed by Xavier coaches and athletic staff and are open to young men entering grades 6-9.

Expedition: Xavier: This enrichment camp will feature sessions on science, technology, robotics, mock trial, leadership, team-building and other activities. Open to young men entering grades 5-8. For summer 2017, there will be two week-long sessions. Session 1 will feature a variety of activities with something different each day. Session 2 will feature a course on robotics programming and design. Students may attend one or both sessions. There are many new activities planned, so returning campers are welcome.

Camps fill up quickly so learn more and register online soon!
