

iD Tech Camps

Held at Yale, Trinity, Wesleyan, WCSU, SCSU, Princeton, Stanford and 150+ campuses nationwide

1-844-788-1858

www.iDTech.com

This summer, encourage the awesome in your child! At iD Tech summer programs, students ages 6-18 can learn to code, design video games, mod Minecraft, model 3D characters, engineer robots, create websites, discover photography, print 3D models, and much more!

Campers are taught in small groups of just 8 students per instructor—guaranteed—for the most personalized instruction. Coupled with iD Tech's proprietary learning platform, iD Game Plan, these programs ensure that both beginners and advanced students learn at the perfect pace. Add in our commonsense balance of indoor instruction and outdoor activities, and it's easy to see why iD Tech campers always have a blast!

While most iD Tech programs are weeklong (overnight stays optional at many locations), teens can enroll in two-week, pre-college academies for the most immersive, in-depth instruction. Half- and full-day camp sessions are offered at select locations for kids ages 6-9 as part of iD Tech Mini. Also, check out Alexa Cafe for girls, ages 10-15.

Come see why more than 235,000 students have chosen iD Tech. Your child will meet new friends, learn awesome STEM skills, and build a foundation of knowledge that will make a positive impact in school, college, and future careers. Join us as we inspire the makers of tomorrow. Visit us online at www.idtech.com to find a camp near you.
