Unique people. Unique experience.

Easterseals Camp Hemlocks is an accessible camp for youth and adults with physical, sensory, intellectual and developmental disabilities in the scenic woods of Central Connecticut. Camp Hemlocks offers a traditional camping experience for campers as young as eight and there is no aging out, allowing campers to attend into adulthood. Activities include, swimming in our indoor heated pool, boating and fishing on our 22-acre pond, arts and crafts, nature, health and fitness, and climbing our challenge tower. Camp Hemlocks programing is individually tailored to the needs of each camper to provide them the most enjoyable and successful camping experience possible.

The benefits of summer camp extend beyond the exhilarating activities, campfires and friendship bracelets. Camp is a place to develop confidence. Camp is where social skills flourish. Camp promotes independence. Most importantly, camp is fun! Campers often say that they feel as if they are a part of a family while they are with us. They feel accepted and wanted with people who understand them.

New activities and customized support encourages campers to try new things and allows even the most seasoned camper an exciting challenge!

Is Camp Hemlocks a good fit for you? Let's Meet!

For a meeting and camp tour please call or email the Camp Director to schedule an appointment!
