Continue learning and growing during the summer on Rectory's campus. From pre-school to ninth grade, Rectory's summer programs offer opportunities for creativity, discovery and friendships, all while continuing to build an educational foundation.

## *Summer @ Rectory* *July 1-27*

This is a four-week program for boys and girls entering grades 5-9, offering a full day of morning classes and afternoon activities for both day and boarding students. During the morning academic program, students can challenge their skills, refresh academic knowledge, improve study skills, increase their English language proficiency, or explore new interests. The afternoon includes an hour-long focus program for students to cultivate their interests outside the classrooms. They also participate in daily Team Competitions. Summer@Rectory weekend activities are required for boarding students and day students are welcome to participate.

## *Day Camp at Rectory School* *June 25-August 3*

The Day Camp at Rectory School, for boys and girls ages 4-13, is designed to develop emerging self-esteem, foster independence and teach cooperation and team work. The camp provides activities that contribute to well-rounded development, while occupying and entertaining young minds. The organized programs provide a safe environment for making friends and socializing.
