The YMCA of Greater Hartford offers summer camp opportunities across 52 towns and communities! We have 14 traditional day camps and two overnight camps that serve children ages 3 through 17, but we offer so much more.

Our youngest children participate in Fun in the Sun, a preschool program with half- and full-day options. Campers then move on to traditional camp at our branches and other locations we manage, where they participate in all types of activities, from archery to swimming, cooking to knitting, rock climbing to acting and more. We also offer enrichment programs and specialty camps that focus on one specific activity a camper might be interested in.

For older campers, our overnight camps, Camp Jewell and Camp Woodstock, offer a respite from the over-stimulated world of technology into a world of nature and exploration. But that's not where camp ends! For high schoolers who have aged out of traditional camp, we have two opportunities. The first is a three-year leadership training program for students to earn responsibility and grow into young adults. The second is a variety of adventure trip camps that take campers out of the Greater Hartford region and to new places across the country.

All of our camps center around the CHoRR values of Caring, Honesty, Respect and Responsibility, and are designed to promote friendship, teach life skills, foster independence, and encourage the development of lifelong relationships.

To register or learn more about all our camp locations and offerings, visit GHYMCA.org/summercamp.
