Camp Invention®

Invent the future today at Camp Invention®!

Wild and crazy ideas become reality in this year's all-new Camp Invention program, Fast Forward! A nonprofit program of the National Inventors Hall of Fame, Camp Invention allows children in kindergarten through 6th grade to experience real-world problem solving, creative thinking, invention and teamwork — all while having FUN! Activities include challenges and achievements from the brightest thinkers around — National Inventors Hall of Fame Inductees — to inspire children! At Camp Invention children are empowered to question, brainstorm, collaborate and invent!

From talking mirrors to toasters that know how to cook their favorite foods, children invent and build models of smart gadgets and explore smart energy in Mod My Mini Mansion™.

In Robotic Pet Vet™ children will become robotic pet veterinarians to diagnose puppy problems and design and build dog park attractions using real tools!

Explore sensors by experimenting with light and dark surfaces with a self-driving robot in Optibot™. Children will be inspired by land, sea and air vehicles as they design their own futuristic vehicle.

In Stick To It™ children learn that inventing is fun but not always easy. Each day will present a new challenge meant to inspire them to think big while they explore what it is like to be a physicist, engineer and entrepreneur.

Local educators lead the week of fun, hands-on, STEM activities that allow children to think big, explore their curiosity, and never give up.

Camp Invention locations are nation-wide! Use promo code ThinkBig15 on or before May 4, 2018 to receive \$15 off the base price. Every registration includes a complimentary Camp Invention t-shirt. Availability is limited, so visit www.campinvention.org or call 800-968-4332 to secure your child's spot today!
