St. Thomas More School, an accredited college preparatory boarding school in the Catholic tradition for young men, offering a unique summer camp program for boys in grades 7-12. Within a traditional New England camp setting on the shore of Gardner Lake, the camp blends our proven academic program with the best summer recreational activities. Whether a student wants to avoid “summer learning loss”, retake a course or get a head start on the next school year, spending a summer with us is a good decision.

Both our “Learn2Learn” (grades 7-9) and “Academic Camp” (grades 10-12) combine academics with summer recreational activities. The Learn2Learn program is designed for middle school students to improve their foundation in language arts and math, while learning how to study to prepare for the increased demands of high school. An integrated STEAM curricular track ties the courses together and delivers the active, hands on learning that boys embrace.

Our Academic Camp program serves high school students who want to get a head start on the next school year or retake a course that they underperformed in. All participants work on study skills, test taking strategies and participate in the “college seminar”, an orientation to the college selection and application process, including visits to local colleges and universities. For students new to the English language we offer an integrated ESL program.

Regardless of the program you choose, you will enjoy the best in summer recreational activities, weekly excursions and field trips, and experience dorm living with new friends from around the United States and the world.

4 Week session: July 8–August 3, 2 week sessions: July 8–July 21 or July 21–August 3.
