Doesn't your dancer deserve to be inspired by the best? Flash Pointe Dance (FPD) brings the most exciting concepts and teachers in the dance world to Fairfield County.

FPD was opened to provide an environment where the art of dance and movement could be appreciated and fostered. They provide the best and most exciting instructors and classes offering the hottest new trends in the dance world as well as the classics. Instructors are chosen for their extensive knowledge of dance, in addition to their ability to offer instruction in a supportive and nurturing manner.

Not everyone who walks through the studio doors is destined to become a professional dancer — in fact most will not. But if they walk away with a love of dance, an understanding that using their body is important to good mental and physical health, and find more within themselves than they realized, then a spark was lit!
