Founded in 1978, the German School of Connecticut is a Saturday morning school featuring a dual-track curriculum for 350+ non-native and native/near-fluent students. Classes are held from September to May on two campuses, ranging from Pre-K (starting age 2) through High School and Adult. The program develops students' communicative proficiency in German while increasing academic excellence. Students are also introduced to the cultural heritage of the German-speaking countries, offering a modern view and an up-to-date picture of life, their modern achievements and their contributions to the U.S. Featuring an international community, parents from German speaking countries, the US and others participate in the many traditional holiday celebrations and take advantage of the transnational atmosphere.
