Kumon is the world's largest after-school math and reading program. The Kumon Method has helped millions of children achieve more than they ever thought they could. At Kumon, your child will build skills that lead to success inside and outside the classroom.

The math and reading programs help children of all ages and levels become eager, independent self-learners. Children learn how to learn on their own, and develop strong academic skills. Students gain a sense of confidence that will help them in the classroom and beyond.

Instead of passively receiving instruction from teachers or tutors, Kumon students actively develop self-learning skills. Each student progresses at his/her own pace through an individualized lesson plan carefully planned by the instructor. Daily assignments take about 30 minutes per subject in two sessions a week at the center, and at home. Step by logical step, students steadily build a solid grasp of math and reading.
