*The gift of music
for your child & yourself*

The Greenwich Suzuki Academy strives to bring music to all children by using Dr. Suzuki's loving and nurturing approach to music education. Our goal is to help create more complete and developed children through the medium of music and musical understanding.

Currently, we are offering private lessons, group classes, parent training seminars, Beginning Orchestra and Advanced Chamber Music. We provide instruction on violin, viola, flute, guitar and cello for ages 3 through 18. All students receive a private lesson and a group class each week.

We also offer early childhood music education for children ages 0-3. Parent and child participate in a weekly interactive music class, where parents enjoy watching their babies develop rhythmic and melodic awareness, memory and physical skills. Teachers work with parents to build a repertoire of lullabies, action songs and nursery rhymes while improving their vocabulary, social behavior and sensitive group participation at an early age.

We believe that music education should be a joyful experience and one where each child is taught to love music as well as the learning process.
