Artful Faces and Clowns Plus has been around since 1989 when Funny Face the Clown began performing her unique brand of clowning antics and was placed in the top 10 in regional competition.

Funny Face and Friends are available for children's parties, grand openings, picnics, fairs, parades, special occasion deliveries, balloon decorating, school and library functions and special holiday visits from Santa and Mrs. Claus, and of course the Easter Bunny.

They've entertained thousands with their balloon sculpturing, face painting, magic and games...delivered with a comforting and childish approach that children of all ages enjoy.

Be sure to ask about the other eight Clowns Plus characters ready to make your special occasions more memorable.
