**Jammie the Gentle Clown** is a soft-spoken, sweet clown. Many a mom has told her that she was the first clown her child was not afraid of. Well-known for her fanciful face painting and body art, Jammie loves that magical moment when a child (or an adult) looks into the mirror, or keeps coming back for more peeks, or when the baby grabs the mirror and starts kissing her reflection.

Flexibility is an important part of Jammie's show. Since children have a short attention span, Jammie changes activities often. Her parties include circle time, singing and dancing, puppets, magic and storytelling. Parents are encouraged to join in, or if they like, relax and enjoy adult time. The birthday child becomes the "star."

Jammie likes to take her time and make each child feel special. Her background includes therapeutic recreation, elementary, pre-school and self-esteem teaching. Jammie has painted all ages from sleeping infants to 97-year-old grammies, and bald-headed men to pregnant bellies. Her creations bring smiles of joy.

Theme parties from princess to pirate, characters, balloon deliveries, singing telegrams — even Mighty Michael the balloon clown — are available. We can provide entertainment in many settings for all types of events, from hospital visits to festivals. Big spaces, little spaces, rain or shine, Jammie fits in anywhere. You can have a birthday party to remember, or a celebration for no reason at all. After 18 years, Jammie promises to bring smiles and happy memories.
