Birthday parties at **Fascia's Chocolates** are really sweet — starting with make-your-own-chocolate pizzas!

During the two hour party, guests will arrive in the Party Room to select toppings for their Chocolate Pizza and decorate their placemat. Once everyone has gotten together, and have their toppings, it's off to the Presentation Room. There, party-goers will learn about chocolate and its origins — from bean to bar — in a fun and age-appropriate way. Guests taste chocolate samples, view the production floor through windows, go on a behind-the-scenes tour via the guided camera and watch demonstrations. Then it's back to the Party Room, because it's time to make the Chocolate Pizzas and also hand dip pretzels and marshmallows in chocolate. A sundae and drink (juice box or water) complete the day.

Birthday parties can be customized for adults as well, with options from what you make during the party, to bringing your own food and more. Parties are only scheduled on Saturdays.
