Animal Embassy offers a live animal experience that your children will not soon forget! Bring your party to life with an age-appropriate selection of live, exotic animals and wildlife artifacts. Take an adventure around the world with Animal Ambassadors representing a variety of habitats. Children are encouraged to touch or handle animals as they learn of the incredible attributes that allow these diverse creatures to thrive in their natural environments. Children will get up close to a South American Chinchilla, a Chinese Water Dragon, Australian Tree Frogs, an African Sulcata Tortoise, a Honduran Milk Snake and more. The birthday child will have special opportunities to interact with the animals. Hands-on participation is encouraged, so all birthday guests will get time with some of the Ambassadors. Programs are age-appropriate, fun-filled and educational! Program options include “Amazing Animal Ambassadors” maximum 24 children and “Extreme Animals!” maximum 35 children.
