The Cookie Workshop provides a unique, fun-filled baking experience for children and adults alike! We are a nut-free cookie and cupcake bakery specializing in make-your-own cookie activities. Purchase custom platters of cookies and cupcakes, stop by to make your own cookies during our regular business hours, have a party to make your own cookies, or order our creations online. With several hundred cookie cutters to choose from, we can make or help you make unique, delectable treats. Our parties are great for birthday celebrations, holiday get-togethers and Moms' Night Outs. Our party package includes flavored cookie dough, icing and sprinkles, a cupcake tower, drinks, themed paper products, and a bakery box to decorate and take cookies home in. In addition to our nut-free bakery platters, we also offer egg, dairy, and gluten free cookies and cupcakes.

Cookie platters, along with our make-your-own cookie kits can also be purchased online and shipped directly to you. All of our products are home-made with no added preservatives.
